

VISION COLLEGE JEDDAH

AL KHABEER CAPITAL

JEDDAH CITY

DECEMBER 2021

Valuation Report

REF: 2011395-1
Date: 31/12/2021
M/S Al Khabeer Capital

Subject: Valuation Report for an educational facility (Vision Colleges Jeddah) in Jeddah City, Saudi Arabia.

Dear Sir,

With reference to your request and approval dated on November 18, 2021 for valuation service of the educational project located in Jeddah city, please find hereafter our detailed valuation report including other information related to the mentioned property.

Issued without prejudice and liabilities

WHITE CUBES REAL ESTATE

EXECUTIVE SUMMARY

1.1 EXECUTIVE SUMMARY

Introduction	We received instructions from Al Khabeer Capital on 18/11/2021 to implement valuation service for an educational facility in Jeddah city.
Client	For whom this report is being prepared is Al Khabeer Capital a valuation of an educational facility in Jeddah city.
Reference No.	2011395-1
Purpose of Valuation	Acquisition Purposes
Subject Property	Educational Facility
Property Location	The property is located in Al Rayyan district, Jeddah City.
Title Deed Information	Title Deed No: 993788002766, Title Deed Date: 23/04/1443, Issued from Jeddah Notary
Ownership Type	Freehold
Owner	شركة أول الملقا العقارية
Land Use	Residential Land
Land Area (Sqm)	Based on the title deed, the land has an area size of 3,020.18 Sqm
BUA (Sqm)	The building is composed of a basement, service floor, ground floor, mezzanine, first floor, second floor, third floor and typical floors with a total BUA of 15,375 Sqm
Occupancy Rate	Based on the client, the occupancy rate is 100%
Valuation Approach	Comparable Approach, Cost Approach & Income Approach
Final Property Value	100,000,000 SAR
Valuation Date	31/12/2021
Inspection Date	25/11/2021

TERMS OF REFERENCE & VALUATION

1.2 BASIS OF VALUATION

Market Value

Market Value is defined as: -

The estimated amount for which an asset or liability should exchange on the valuation date between a willing buyer and a willing seller in an arm's length transaction, after proper marketing and where the parties have each acted knowledgeably, prudently and without compulsion.

1.3 DATES

Client Approval Date	November 18, 2021.
Inspection Date	November 25, 2021.
Valuation Date	December 31, 2021.
Report Date	December 31, 2021.

1.4 PURPOSE OF VALUATION

The client requested to know the current market value of the subject property for Acquisition Purposes. Therefore, and according to the valuation purpose, and as requested by the client, we will adapt the valuation methodologies of The comparable approach, Income Approach & Depreciated Replacement Cost (DRC)

PROPERTY DETAILS

1.5 PROPERTY & LOCATION DESCRIPTION

Property Description

The subject property is an educational facility located in Al Rayyan district, Jeddah City. Based on the provided copy of the title deed and the construction permits, the project has a total land area of 3,020.18 Sqm, total BUA of 15,375 Sqm and composed of 13 floors. As per the site inspection done by our team for the purpose of valuation, the property is open from 1 side with a directed view on Al Rahmaniah street (25 Meters width) from the west side. The college is mostly surrounded by residential units in addition to several vacant lands where all infrastructural facilities such as water, electricity, sewage and telecommunication are available within the surroundings and connected to the subject property.

Location Description

The subject property is an educational facility located on Al Rahmaniah street, Al Rayyan district, Jeddah city.
 The property is bordered from the north by a Plot# 262
 The property is bordered from the south by a Plot# 256
 The Property is bordered from the east by Plot# 257 & 258
 The property is bordered to the west by a Street (25 Width)

Ease of Access

The ease of access to the property is medium, based on its current location as it is located Al Haramain Street

Area Surrounding the Property

The real estate surrounding the property subject of valuation are mostly of residential uses and some vacant lands.

Land		Building	
Land Use	Residential	Building Type	Educational Facility
No. of Streets	1	Building Structural Conditions	Fully Constructed
Land Shape	Graded	External Elevation Conditions	Medium
Direct View on the Main Road	No direct view on the main road	Building Finishing Conditions	Medium
Direct View on an Internal Street	Al Rahmaniah Street	Overall Building Conditions	Medium
Land Condition	Constructed		

1.6 INFRASTRUCTURE FACILITIES

	Available in the surrounding	Connected to the property
Water	✓	✓
Electricity	✓	✓
Tele-Communication	✓	✓
Sewage	✓	✓

All the infrastructural facilities are available in the surroundings and connected to the subject property.

1.7 LOCATION

The subject property is located in Al Rayyan district, Jeddah city and surrounded by several landmarks as follows:

Property Location on a City Scale

Property Location on a District Scale

Surrounding Landmarks

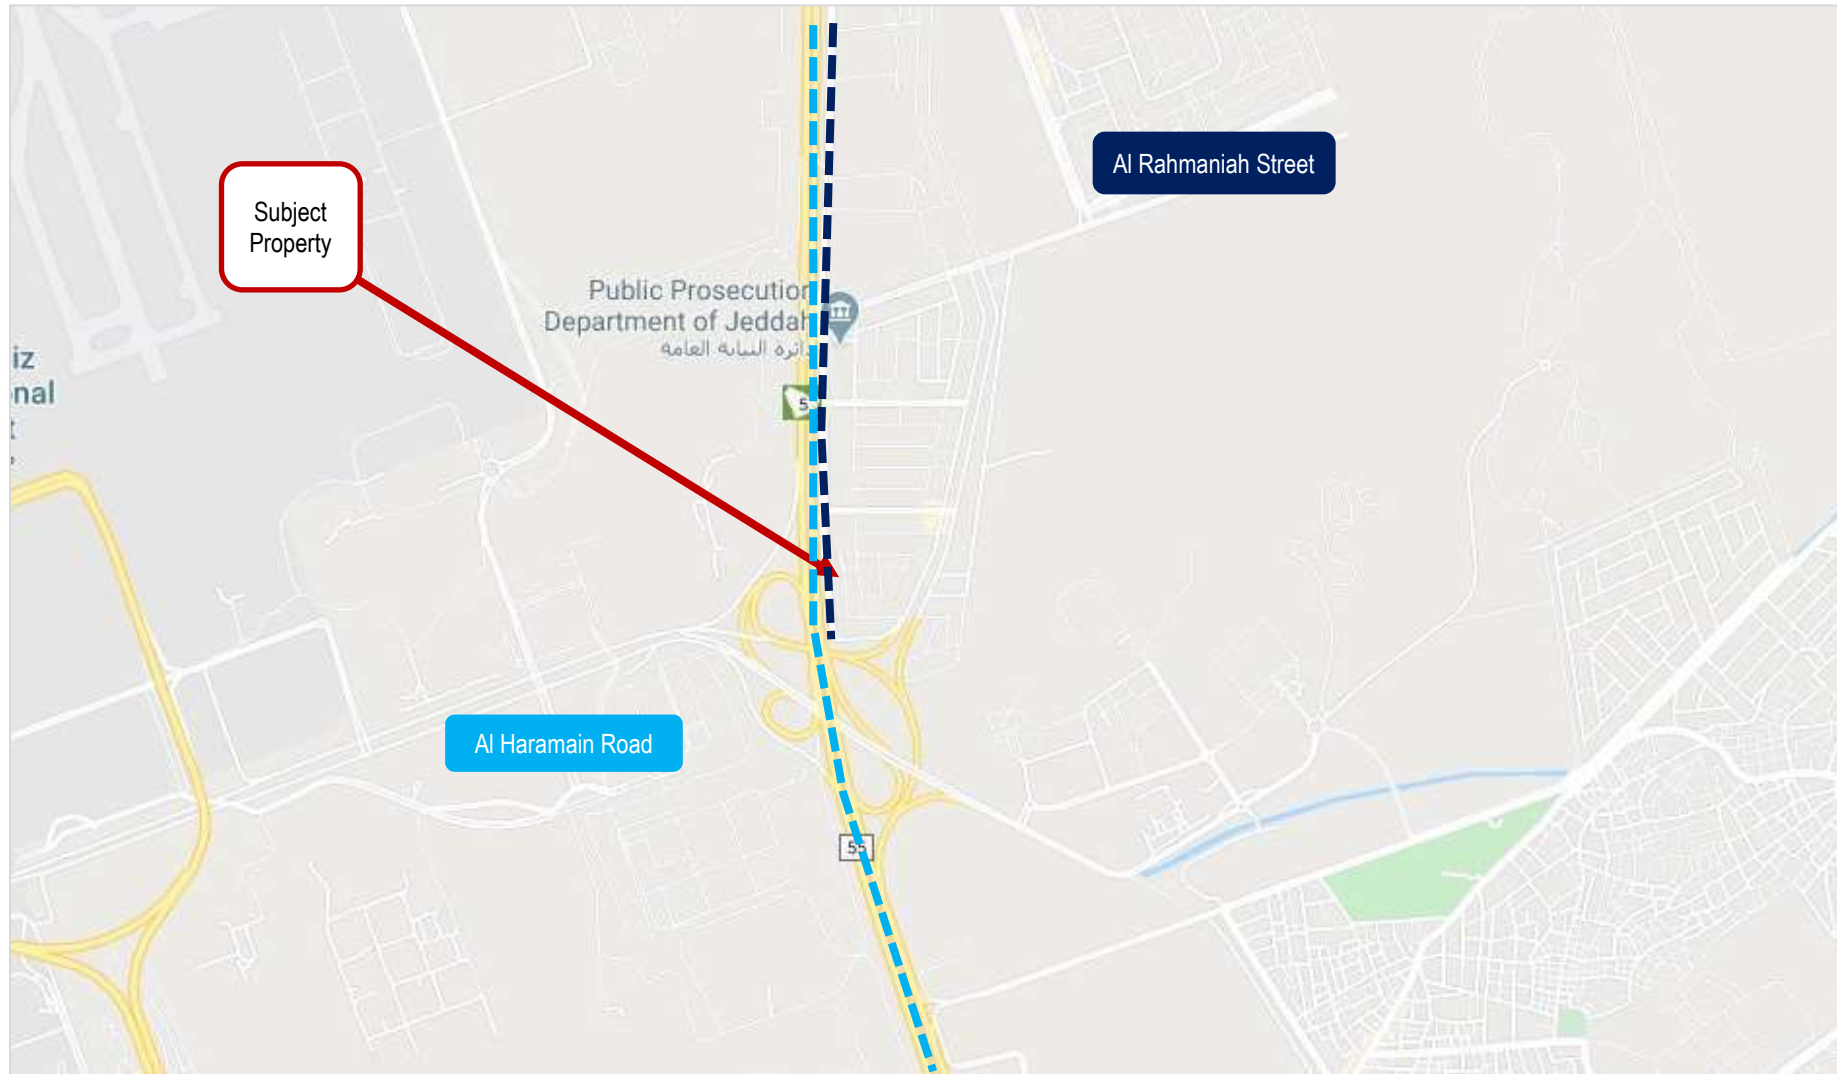

- 1- Abou Saleh Mosque (0.4 Kilometers)
- 2- King Abdulaziz International Airport (4 Kilometers)
- 3- Medco Jeddah (1.4 Kilometers)
- 4- Modern Society Pharmacy 23 (2 Kilometers)
- 5- Al Bassami International Business Group (2.4 Kilometers)

- 6- National Water Company (1 Kilometers)
- 7- Administrative Court in Jeddah (0.4 Kilometers)
- 8- Public Prosecution Department of Jeddah (0.8 Kilometers)
- 9- Abdulrahman Mosque (0.9 Kilometers)
- 10- Rahmaniah Gas Station (0.9 Kilometers)

1.8 PROPERTY ACCESS

The subject property can be accessed as shown in the map below:

1.9 TITLE DEED & OWNERSHIP

We were provided with copy of the title deed of the subject property which is owned by one title deed. The details of the subject property:

City	Jeddah	Land Area	3,020.18
District	Al Rayyan	Plot No.	259
T.D Type	Electronic	Block No.	N/A
T.D Number	993788002766	Layout No.	416/ج/س
T.D Date	23/04/1443	Owner	شركة أول الملقا العقارية
T.D Value	42,000,000 SAR	Ownership Type	Freehold
Date of Last Transaction Issued From	23/04/1443 Jeddah Notary	Limitation of Document	N/A
North Side	Plot# 262	East Side	Plot# 256
South Side	Plot# 257, 258	West Side	Street (25 Meters)

Notes The client has provided us with copy of the Title Deed which was assumed to be correct and authentic. It is not in our scope to run legal diagnosis on any legal document.

1.10 CONSTRUCTION & BUILDINGS

The building permit indicates the maximum permissible BUA approved by the city municipality. However, the actual area may differ from the area mentioned in the building permit. Therefore, if the customer does not provide us with a copy of the approved plans, the evaluation will be done based on the building permit provided by the customer. In the event that the customer does not provide us with a copy of the legal documents that show the total building surfaces, we will evaluate them using the skills of our team along with the municipality's laws and regulations, and therefore the building surfaces will be estimated only roughly.

Source of BUA		Actual Age of the Property		Status of the property	
Construction Permit	✓	Construction Permit	✓	New	-----
As Built Drawings	-----	As Built Drawings	-----	Fully Constructed	✓
Other Documents	-----	Other Documents	-----	Under Construction	-----
Verbal Information	-----	Verbal Information	-----		
Estimation	-----	Estimation	-----		

The subject property is a fully constructed educational facility consisting of 13 floors and used as a college and composed of a ground floor, mezzanine, first floor, second floor, third floor and upper floors. The client provided us with a building permit for the subject property, which contains the following data:

Subject Property	
Construction Permit Type	New Permit
Property Type	Residential- Commercial
Construction Permit No.	3748
Construction Permit Date	01/05/1430
Permit Expiry Date	01/05/1433

Description	Area (sqm)	Use
Basement	10	Parking
Service Floor	800	Services
Ground Floor	2510	Residential- Commercial
Mezzanine	780	Residential- Commercial
First Floor	1,025	Residential
Second Floor	1,025	Residential
Third Floor	1,025	Residential
Typical Floors	8,200	Residential
Total BAU (sqm)	15,375	

The construction permit provided by the client shows a total BUA of 15,375 Sqm.

1.11 MAINTENANCE & OPERATIONAL EXPENSES

Based on the market survey done by our team for the purpose of valuation, the total maintenance and operating costs of the property subject of valuation are estimated to be 15% of the total revenues, which includes all administration, maintenance, operation and general service bills.

1.12 ESTIMATING THE OVERALL PROPERTY CONDITION

Item	Status & Condition					Notes
	1	2	3	4	5	
Location				●		Medium Location
Building Structure					●	Some maintenance is needed
Crack & Damages					●	Some cracks and damages are available in some areas
Major Deficiency					●	Some areas need some maintenance
External Elevation				●		Cracks and damages in the external elevation
External Ramp				●		No Issues Found
External Lighting				●		The lighting bulbs needs simple maintenance
Common Area Lighting				●		No Issues Found
External Back Yard				●		No Issues Found
A/C Room					●	Need maintenance
Internal walls				●		Some minor paint job might be required in some areas
Ceilings					●	Some minor maintenance might be required in some areas
Floor Tiles					●	No Issues Found
Surveillance System and Cameras				●		Average Quality
Elevators				●		No Issues Found
Emergency Staircase				●		No Issues Found
Emergency Exit Doors				●		No Issues Found
Fire Alarm System					●	No Issues Found
Fire Fighting System					●	No Issues Found
Power Generators					●	No Issues Found
Water Pumps				●		No Issues Found
Ventilation System					●	No Issues Found
Parking					●	No Issues Found
Building Cleanliness				●		Medium Quality
	0	0	9	48	45	

Out of 120 points and based on a field survey by our team, the property achieved 103 points. That is, the general condition of the building is medium with a rate of 86%. Based on the provided construction permit, the actual age of the building is 8 years.

1.13 INSURANCE

We have not been provided with any insurance policy for the underlying asset.

1.14 PHOTO RECORD

MARKET INDICATORS

1.15 SAUDI ARABIA ECONOMIC INDICATORS

PROPERTY VALUATION

1.19 GENERAL ASSUMPTIONS

- The subject property is valued under the assumption of freehold status unless otherwise stated in the report.
- All the written and verbal information provided to us by the Client assumed to be up to date, complete and correct in relation to elements such as title deed, construction permits, land area, and any other relevant matters that are set out in the report.
- This report is a valuation report and not structural / building survey. Therefore, we did not carry out any structural due diligence, utilities check, services check, soil test, etc.
- All the inputs used in the valuation methodologies are based on the collected market data using our best know how and experience in the related market.
- The output of this report (Final Value), is based on the used assumptions, received documents from the client and available market data. Yet, the output estimates show an indicative value of the subject property / properties.

1.20 VALUATION APPROACH

With reference to the valuation purpose, taking into consideration the nature of the subject property, we will use the following ticked methods to estimate the market value of the subject property:

	DRC	Comparable	Income Cap	DCF	RLV
Land	-----	✓	-----	-----	-----
Building	✓	-----	-----	-----	-----
Overall Property	-----	-----	✓	-----	-----

COMPARABLE METHOD

This is the method most are familiar with as it is the accepted method for valuing residential real estate. Typically, this method involves selecting properties with similar characteristics in the same market area that have recently sold. Once those properties are found they are compared to the property in question and a professional appraiser will deduct value from the subject property for comparative deficiencies and increase value for advantages. Typically, this method is required if the investor is seeking conventional financing. For comparable information, property brokers, dealers and estate agents are contacted to ascertain the asking and selling prices for property of the nature in the immediate neighborhood and adjoining areas. Neighboring properties, which have been recently sold or purchased, are investigated to ascertain a reasonable selling price.

DEPRECIATED REPLACEMENT COST (DRC)

A cost approach is a real estate valuation method that surmises that the price someone should pay for a piece of property should not exceed what someone would have to pay to build an equivalent building. In cost approach pricing, the market price for the property is equivalent to the cost of land plus cost of construction, less depreciation. It is often most accurate for market value when the property is new. Generally, the cost approach considers what the land, devoid of any structures, would cost, then adds the cost of building the structures, then depreciation is subtracted. The cost approach is most often used for public buildings, such as schools and churches, because it is difficult to find recently sold comparable properties in the local market, and public buildings do not earn income, so the income approach cannot be used, either. A property that already has improvements will usually contribute a certain amount of value to the site, but improvements can also lower property value if the site's potential buyers wish to use the property for another use that would entail removing some of the improvements to the current site. The cost approach is best used when improvements are new and there is adequate pricing information to value the property components. The cost approach may be less desirable if there are no recent sales of vacant land for which to compare, since the major method of valuing vacant lands is to use the sales comparison approach, or when construction costs are not readily available. The cost approach method includes:

- Estimate what the vacant property would be worth.
- Estimate the current cost of building the structures, then add that value to the value of the vacant land.
- Estimate the amount of accrued depreciation of the subject property, then subtract it from the total to arrive at the property's worth.

CAPITALIZATION METHOD (CAP RATE)

The income approach values property by the amount of income that it can potentially generate. Hence, this method is used for apartments, office buildings, malls, and other property that generates a regular income.

The appraiser calculates the income according to the following steps:

- Estimate the potential annual gross income by doing market studies to determine what the property could earn, which may not be the same as what it is currently earning.
- The effective gross income is calculated by subtracting the vacancy rate and rent loss as estimated by the appraiser using market studies.
- The net operating income (NOI) is then calculated by subtracting the annual operating expenses from the effective gross income. Annual operating expenses include real estate taxes, insurance, utilities, maintenance, repairs, advertising and management expenses. Management expenses are included even if the owner is going to manage it, since the owner incurs an opportunity cost by managing it herself. The cost of capital items is not included, since it is not an operating expense. Hence, it does not include mortgage and interest, since this is a debt payment on a capital item.

Estimate the capitalization rate (aka cap rate), which is the rate of return, or yield, that other investors of property are getting in the local market.

1.21 COMPARABLE APPROACH

This method aims to collect data and information on actual sales or current offers of real estate similar to the original subject matter being evaluated, and then make the necessary adjustments to these comparisons in terms of area, location, shape, quality, content and others. Below is a summary of the evaluation process in the style of comparisons and the amendments made to the available comparisons

AS per the market survey done by our team for the purpose of valuation, we couldn't find samples similar to the subject property in terms of location, area size, use, etc. Yet, we have executed several trade interviews with local real estate agents and found that the average rate for such properties falls between 4,500 & 5,000 SAR/ Sqm. We will base our valuation analysis on the average rate 4,750 SAR/ Sqm.

SENSITIVITY ANALYSIS					
	-10%	-5%	0%	5%	10%
Land Area	3,020	3,020	3,020	3,020	3,020
SAR / Sqm	SAR 4,275.0	SAR 4,512.5	SAR 4,750.0	SAR 4,987.5	SAR 5,225.0
Property Value	SAR 12,911,270	SAR 13,628,562	SAR 14,345,855	SAR 15,063,148	SAR 15,780,441
PROPERTY VALUE					

1.22 COST APPROACH (DRC)

As a first step, the cost of reconstructing the building (the cost of replacement) was estimated, based on the average construction costs of the real estate similar to the property being evaluated, and at the same level of finishes, services, utilities, and others. The opinion of some engineering experts was used in this regard, and in the following table the scope of the expected costs for replacing the building under evaluation

	Min Cost (SAR / Sqm)	Max Cost (SAR / Sqm)	Average Cost
Skeleton - Concrete Cost	SAR 1,100	SAR 1,300	SAR 1,200
MEP	SAR 600	SAR 700	SAR 650
Finishing Materials	SAR 800	SAR 900	SAR 850
Fitouts &Appliance	SAR 80	SAR 120	SAR 100
Owner Profit	18%	22%	20%

In the following table, we will calculate an estimate of the direct costs of the building in the new condition, according to the main components of the building, such as the concrete structure, electromechanical work, finishes, site improvements, etc. Then we will estimate the value of the indirect costs as a percentage of the total direct costs to estimate the total construction costs of the project

LAND		
Land Area	SAR / Sqm	Total Value
3,020.18	SAR 4,750	SAR 14,345,855

Building					
		Unit			Total BUA
Underground		Sqm			0.00
Upper Floors		Sqm			15,375.00
Total (SQM)			15,375.00		
Development Cost					
Hard Cost - Upper Floors					
	Area	SAR / Sqm	Total	Completion Rate	Total Cost
Skeleton & Block	15,375.00	SAR 1,200	SAR 18,450,000	100%	SAR 18,450,000
Electro Mechanic	15,375.00	SAR 650	SAR 9,993,750	100%	SAR 9,993,750
Finishing	15,375.00	SAR 850	SAR 13,068,750	100%	SAR 13,068,750
Fit outs & Appliances	15,375.00	SAR 0	SAR 0	100%	SAR 0
Furniture	15,375.00	SAR 0	SAR 0	100%	SAR 0
Site Improvement	3,020.18	SAR 100	SAR 302,018	100%	SAR 302,018
Total			SAR 41,814,518	100.00%	SAR 41,814,518
Overall Soft Cost					
			Total Hard Cost	Ratio	Soft Cost
Initial Project Pre Cost			SAR 41,814,518	0.10%	SAR 41,815
Design			SAR 41,814,518	1.00%	SAR 418,145
Eng Consultant			SAR 41,814,518	0.50%	SAR 209,073
Management			SAR 41,814,518	5.00%	SAR 2,090,726
Contingency			SAR 41,814,518	5.00%	SAR 2,090,726
TOTAL				11.60%	SAR 4,850,484.09
Total Hard Cost	SAR 41,814,518			BUA	15,375.00
Total Soft Cost	SAR 4,850,484.09			SAR / Sqm	SAR 3,035
Total Construction Cost	SAR 46,665,002.09			Overall Completion	100.0%

After knowing the total building construction costs at a rate of 3,035 SAR per square meter, we will estimate the life span of the property according to the type of construction and its general condition, and then apply the depreciation rates based on the actual age of the property. Then, the developer's profitability will be added to the property's value after depreciation to see the estimated market value of the building

DEVELOPMENT VALUE					
Total Dev Cost		SAR 46,665,002		Net Dep Rate	33.33%
				Dev Cost After Depreciation	SAR 31,110,001
Economic Age		30		Total Completion Rate	100.00%
Annual Dep Rate		3.33%		Developer Profit Rate	20.0%
Actual Age		10			
Total Dep Rate		33.33%		Dev. Profit Amount	SAR 6,222,000
Add Appr Rate		0.00%		Development Value	SAR 37,332,002
Net Dep Rate		33.33%			

The total market value of the building is 37,332,002 SAR, which will be added to the market value of the land in order to get the full value of the property as follows:

Total Dev. Value	Land Value	Total Property Value	Rounded Value
SAR 37,332,002	SAR 14,345,855	SAR 51,677,857	SAR 51,680,000

1.23 INCOME APPROACH- LEASING CONTRACT

The client informed us that the annual lease of report is 7,500,000 SAR for 25 years where an increase of 5% will be added each 5 years.

Market Capitalization Rate Analysis

Based on recent transactions of real estate properties and funds, the average capitalization rate of acquiring such property falls in the range of 7% to 8%. This average is mainly driven by several factors such as the quality of the building, finishing materials, the general location, ease of access, actual age of the property, size of the project, and the extent of income stability in it. In addition to the above, the capitalization rates are also affected directly by the supply and demand rates for the same type of real estate

The Capitalization Rate Used for the Valuation

With regard to the capitalization rate used in the valuation, we will base our analysis on the average capitalization rates based on the market and then make some adjustments based on the property situation in terms of its characteristics, location and some other important elements.

Minimum capitalization rate		7.00%
Maximum capitalization rate		8.00%
Average		7.50%
The effect of the property specifications on the property		
Item	Influence	Notes
Ease of access to the property	0.25%	1 Side Open
General condition of the property	0.00%	The actual age of the property is 8 years
The general location of the property	0.00%	The area is served good
Quality and finishes	0.00%	Average quality finishes
Facilities of tenant payment	-0.25%	The tenant provided promissory note for the contract period
Services and public facilities	0.00%	level and availability of services is average
Total	0.00%	
<i>Note: When the effect is negative (-), this reduces the capitalization rate, which increases the value of the property. And when the effect is positive (+), this increases the capitalization rate, which reduces the value of the property</i>		
Total adjustments on capitalization rate	0.00%	
Capitalization rate, according to market averages	7.50%	
Estimated capitalization rate of the property valuation	7.50%	

With regard to the capitalization rate used in the valuation, we will rely on the averages of the capitalization rate by market and then make some adjustments based on the real estate situation in terms of the following:

- Easy access to the property
- The general condition of the property
- The general location of the property
- Quality of finishes
- Quality and presence of management team
- Services and public utilities

The estimated capitalization rate for the property, which will be based on the valuation process, is 7.5%, which will be applied subsequently to the net operating income of the property.

Based on the above, the value of the property using the income capitalization method is as follows:

REVENUES					
	Quantity		Revenues

Net Operating Income				SAR 7,500,000.00	
Net Operating Income	Cap Rate	Property Value		Rounded Value	
SAR 7,500,000.00	7.50%	100,000,000.00 SAR		100,000,000.00 SAR	

1.24 SUBJECT PROPERTY VALUE IN DIFFERENT APPROACHES

Methodology	Subject of Valuation	Value in Numbers	Value in Letters
Income Approach	Property	SAR 100,000,000	One Hundred Million Saudi Riyals
DRC Approach	Land + Building	SAR 51,680,000	Fifty-One Million and Six Hundred Eighty Thousand Saudi Riyals

1.25 SUBJECT PROPERTY VALUE

We are of an opinion that the total market value of the subject property taking into consideration the purpose of valuation by using the Income Approach is:

Property Value: 100,000,000 SAR
One Hundred Million Saudi Riyals

1.26 REPORT USE

This valuation is for the sole use of the named Client. This report is confidential to the Client, and that of their advisors, and we accept no responsibility whatsoever to any third party. No responsibility is accepted to any third party who may use or rely upon the whole or any part of the contents of this report. It should be noted that any subsequent amendments or changes in any form thereto will only be notified to the Client to whom it is authorized.

1.27 DISCLAIMER

In undertaking and executing this assignment, extreme care and precaution has been exercised. This report is based on the information supplied by the bank and or the owner/s of the property. The values may differ or vary periodically due to various unforeseen factors beyond our control such as supply and demand, inflation, local policies and tariffs, poor maintenance, variation in costs of various inputs, etc. It is beyond the scope of our services to ensure the consistency in values due to changing scenarios.

1.28 CONCLUSION

We trust that this report and valuation fulfills the requirement of your instruction. The contents, formats, methodology and criteria outlined in this report are pending copyright. This report is compiled based on the information received to the best of our belief, knowledge and understanding. The information revealed in this report is strictly confidential and issued for the consideration of the client. The valuer's approval is required in writing to reproduce this report either electronically or otherwise and for further onward distribution, hence no part of this report may be copied without prior consent. We trust that this report and valuation fulfills the requirement of your instruction. The contents, formats, methodology and criteria outlined in this report are pending copyright.
